LISHA CHEN

ththlisa@gmail.com | (202)9300723 | Portfolio: ththlisa.github.io/dev

A self-motivated and creative front-end engineer possesses a track record of developing cross-platforms, enterprise-level web apps, as well as open-source contributions. Passionate to learn new things every day.

TECHNICAL SKILLS

JavaScript, React, Angular, CSS/CSS3, SASS, HTML/HTML5, Bootstrap, d3.js, CodeIgniter, MySQL, MongoDB, PHP, Node.js, NPM, Git/SVN, Data Structure, Algorithms, Testing/Debugging

EXPERIENCES

John Deere, Moline, IL
UX Designer Contractor   12/2018 – 07/2019
- Improved the stability and maintainability of the UI components and brought the best solutions and user experiences to global customers.
- Conducted and found the most efficient UI system documentation method to save more than 50% time compared to the current process.

IU COMET Lab, Indianapolis, IN
Web Developer   08/2016 - 09/2018
- Assessed the compatibility of Web applications & deployed technologies like CodeIgniter, HTML5, CSS, JavaScript, React, Bootstrap, etc.
- Optimized Web performances by conducting well-organized MVC patterns, minification, and produced reusable components library for long term dev cycle.
- Collaborated with Data Analysts to execute healthcare data management projects for Midwest hospitals and clinics.

Lampros Labs, Cincinnati, OH
Front-end Developer Co-op   01/2016 - 04/2016
- Developed multiple themes from scratch using WordPress framework and configured plugins to match the clients' needs.
- Worked with UI designers and senior developers to advance website usability and stability.

PROJECTS

CN Girls Dev | *Founder / Developer*
Founded an online female engineers' community to share coding experiences. Set up, designed, and maintained the multi-authors blog platform based on Ghost.

Exploring IUPUI | *Lead Full-stack Developer*
Led the Web engineering process and collaborated with PM and team leads. Provided and customized API calls to serve functions in Unity. Built and shipped the database, back-end, and front-end.
